

VISUAL STORYTELLING: THE COMIC CREATOR COURSE

WITH URI MATVEG

Drawing is a skill, but storytelling is a language. This 4-week course is designed to bridge the gap between "drawing a character" and "telling a story."

We treat comics as a discipline. You will learn the entire production pipeline used by professional graphic novelists. This is a forward-thinking course that prioritizes clarity and communication over just making "pretty drawings." By the end of the month, you will have completed a short narrative comic or zine.

No experience necessary. Price includes all professional materials (Cotton watercolor paper, waterproof ink, and shared pigments)

Ages: 14+ | Languages : English, French, Spanish.
